India's Agricultural Crop Production Analysis (1997 -2021)

India is a large producer of several agricultural products.

In terms of quantity of production, India is the top producer in the world in milk, and second largest in wheat and rice.

Agricultural production is prone to several risks which affect both producers and consumers.

In order to enhance investment and achieve a sustained increase in production, coherent and integrated long-term strategies and policies are required to reduce risk aversion and build flexibility among Indian rural producers.

There is a need to provide remunerative prices for farmers in order to increase the incomes of farmers.

In this research paper researcher's objective is to study the major agriculture crops production, export and import of agriculture crop wheat
